CS294A class survey

Name:

Email:

Status (undergrad/grad and year):

Department:

What AI or robotics courses have you taken?

What math and statistics courses have you taken?

If you have any previous research experience, please briefly describe it here.

If you have specific preferences about a type of deep learning project to work on, please comment on it here. (Since you probably don't know much about deep learning yet, we're expecting that most people will leave this blank.)

Is there anything else that we should know? (E.g., partners you want to work with.)

What times are you *unable* to meet regularly on Wednesdays (10am-8pm)?

What times are you *unable* to meet regularly on Thursdays (10am-8pm)?

CS294A class survey

[Filling out this page is optional. Your answers will not be used for project assignment.]

What are your goals in taking CS294A?   Specifically, how important is each of the things below to you?

1. Intellectual excitement of research................ Not at all   Slightly   Somewhat   Very
Feel free to elaborate:

2. Learn more about machine learning/AI......... Not at all   Slightly   Somewhat   Very
Feel free to elaborate:

3. Publish a research paper............................. Not at all   Slightly   Somewhat   Very
Feel free to elaborate:

4. Strengthen grad school application............... Not at all   Slightly   Somewhat   Very
Feel free to elaborate:

5. Strengthen resume (for industry jobs)........... Not at all   Slightly   Somewhat   Very
Feel free to elaborate:

6. Other (please elaborate) .... Not at all   Slightly   Somewhat   Very
Please elaborate:
